A skilled full-stack developer proficient in the MERN Stack is seeking a challenging position to leverage skills and expertise in developing innovative web applications. With a solid foundation in HTML, CSS, JavaScript, React, Node.js, Express.js and MongoDB are prepared to deliver robust and user-friendly solutions. Committed to staying up-to-date with industry trends, ready to contribute to the success of an organization by creating exceptional web experiences.

TECHNICAL SKILLS

Languages : JavaScript, Node js, HTML, CSS
Libraries : Bootstrap, Tailwind CSS, React
Framework : Express JS
Databases : Mongo DB
Familiar with : Git, GitHub, VS Code

PROJECTS

Netflix Landing Page Clone| HTML, CSS

As part of my web development journey, I created a responsive Netflix landing page clone using HTML, CSS. This project replicates the visual design and layout of the Netflix home page, providing a starting point for creating similar interfaces for movies and TV shows.

QR Code Generator| HTML, CSS, JavaScript

The HTML, CSS, and JavaScript QR Code Generator is a dynamic and user-friendly web application designed to generate QR codes instantly. This project seamlessly integrates HTML for structure, CSS for styling, and JavaScript for functionality, offering a comprehensive showcase of front-end development skills.
